Southern Pacific Railroad. There will be a meeting of the stockholders of the Southern Pacific Railroad Company, in this city, on Tuesday, the 17th of this month. President Fowlkes will be here and give an account of his doings in Texas. He is in fine spirits, as we learn by a dispatch from him, and hopes to tell those who attend the meeting, of matters and things that will cheer them up also. Let every stockholder exert himself to get up a rousing

meeting, composed of all interested in this mag-BREDEN'S REAL ESTATE TRANSACTIONS .- Our old friend, J. W. Breden, has sold, during the last month, real estate in the city and county, amount ing to some \$40,000, or about \$1,500 per day. The following were the principal transactions:

Graves to Atchison, lot 60 front by 201 deep, on Sixth, between Chestnut and Broadway streets, Heinsohn to Stevens, 24 acres in Jefferson coun-

ty, on the Bardstown pike, 21/2 miles from the Smith to Batchelor, 146 acres in Jefferson couny, seven miles from the city, \$10,000.

Stevens to Heinsohn, house and lot, on Fourth, between Green and Walnut, \$9,000. These sales, and many others we have publish ed, show an active movement in real estate .-Things are reviving in our city, and a bright future is before us. The Nashville Railroad and the water works will give us another step forward, and, therefore, let all be of good cheer. Louisville has seen her worst, but she has not yet dreamed of her best. Her march is onward, and let us all unite to push her on to the glorious fu-

We call special attention to Mr. C. C. Spencer's sales for this week. On this day, at ten o'clock, A. M., he sells the furniture of Mrs. Robb, on Fifth street, and at four and a half o'clock, P. M., five frame cottages on East street. Tuesday he sells, in the morning, the personal effects of Dr. Dudley, deceased, on Fifth street, and groceries and glass ware at his auction rooms, and in the afternoon a house and lot and several vacant lots. On Wednesday morning, dry goods, &c., at his auction rooms, and in the afternoon, several brick houses and lots. On Thursday morning he sells Mr. Heinsohn's fine household and kitchen furniture, and he informs us that he will also sell, on Friday morning, at his auction rooms, furniture, housekeeping articles, carriages, buggies, mules, and horses. All these sales

are peremptory. See advertisements. FOR THREE MORE NIGHTS. - Madame Bosco, as will be seen by advertisement in this morning's paper, will give three additional magical enterannments. During her stay she will continu nightly to distribute a large amount of fine and choice jewelry. These entertainments are decidedly attractive, and the gifts are given in good aith, as those who have attended her exhibitions during the last few evenings can testify. Among the gifts to be distributed to-night, we learn, are splendid gold watch and a fine set of ladies' jewelry. Admission only fifty cents, entitling the purchaser to a drawing. Let there be a full

KEYS .- The attendance at Mozart Hall, Saturday evening, to witness the performance of Donnetti's celebrated troupe of Dogs and Monkeys, was very large. Every one-especially the young folks-seemed delighted. The canine feats were fully equal to the equestrian performance of traveling circuses. Indeed, the burlesque circus acts were decidedly life-like, entertaining, and amusing. It is a performance well worth going to see, and taking all the little folks. Go early you wish to secure good seats, for the crowd in

We are requested to call special attention o Messrs. S. G. Henry & Co.'s sale this afternoon, Monday, at 4 o'clock, on the premises, of those very desirable and well built three story brick dwelling houses, now occupied by Mr. Charles Snead and Mr. Gideon Shyrock, situated n Madison street, south side, just below Eighth street. Messrs. S. G. Henry & Co. will sell this afternoon, at 5 o'clock, (immediately after the sale on Madison street,) a two-story brick house and lot on Fourteenth street, first house South of Broadway. This is very snug and desirable property. It was advertised to be sold on last Monday, and postponed on account of the rain. Buyers wanting property in this thriving and improving neighbor hood, would do well to attend.

TOURTH OF THE SUN. We cannot too often impress upon mothers the great advantages to be derived from the use of Dr. Bull's Vegetable Worm Destroyer. Put up as they are in the form of candy, children eat them with avidity, and the destruction of the worms is certain, and that, too, without injury to the health of the child.

Fire -About 10 o'clock last night, a fire broke out in a frame building, southeast corner of East and Green streets. The engines were promptly on the spot, and the fire extinguished with but little damage. Steam fire-engines are certainly

VALUABLE PROPERTY AT AUCTION .- It will be seen by the advertisement, in another column that Thos. H. Noble, Esq., will, on the 31st inst. sell at auction some very valuable and desirable property, on the Portland roads. The terms of payment are very easy. Thanks to our frien is of Adams' Express.

Rev. Dr. Vandyke, of Brooklyn, will preach

in the First Presbyterian Church, in this city, this

begun in Europe, between Austria and Sardinia.

There is therefore no lenger any hope of peace without blood-shed. As a matter of course the fight will not be confined to Austria and Sardinia. Already have French troops been poured into Sardinia to help Victor Emanuel, and it will be seen that warlike preparations are going on in England and Prussia. No one can foresee the probable end of the bloody drama now opened, but it is possible that all the powers of Europe will have something to do with the conflict before it is ended. Europe needs remapping, and the chances are that the necessary work will now be done. If the fight results in establishing the independence of Italy, there will then be a power in the South of Europe to balance the German in the North. The chances, however, are that worse work than this will be done. If France don't get a slice of Italy, and Russia of Turkey, before the war is ended, we shall be surprised.

THE LAGRAGE CONVENTION .- In another column will be found the proceedings of the Democratic Convention, which assembled at Lagrange last Saturday. It will be seen that Thomas H. Holt, the first choice of the Courier, was nominated by acclamation. The convention has done its work, and it now remains for the Democracy of this district to do their duty towards electing him .-There is no sense in nominating candidates who are neiter to be voted for nor elected. The Democracy of the district have nominated Col. Holt, and they should now stand up to him, and elect him, if such a thing be possible.

We have gotten it into our head that Hon. Humphry Marshall will either not make the race at all, or that he will make it upon his own platform. In our opinion, he will repudiate the action of the 22d of February Convention in this city, and differ from the Journal upon the Territorial question. We may be wrong in this, but, if we are, it will be time enough to correct the error when we hear from Col. Marshall. He has not accepted the nomination, and he has not indicated the platform on which he will stand, if he should accept it. There is no telling what may happen, and until we know where to place Marshall, we can't say whether Holt will be elected or not .-Marshall is an Old Line Know Nothing, and, in our opinion, will not stand the inroads that Bell has made upon his cherished creed.

JEEMS PIPES, OF PIPESVILLE .- Stephen Massett Esq., known to the literay, the sentimental and the laughing world, as "Jeems Pipes, of Pipesville," will make his first appearance before the public in our city this evening, at the Masonic Temple. We publish a capital letter from him this morning, which of course, every body will read and admire. He tells about a trip to the Mammoth Cave, and tells the story so sweetly that all who read will want to see the man and hear him upon the stage.

At the Masonic Temple this evening he will entertain his audience with song and chit-chat of travel in many lands. It would not be possible for us, within reasonable limits, to give a just idea of what he will say and do. We shall, therefore, advise every body to read the following notices of him from the New York press, and to hear him without fail to-night:

[From the New York Herald, Oct. 28th, 1858.] Mr. Massett's Entertainment. — Mr. Stephen Massett, who has been favorably known to the reading public as "Pipes, of Pipesville," has met with a merited success in the two soirces which he has recently given at Niblo's Saloon. Mr. Massett's entertainment in its design, is similar to Albert Smith's, and might be termed a photograph of travel. Mr. Smith's travels, however, do not extend beyond the continent of Europe, while Mr. Massett's monologue is much more interesting than that of Albert Smith would be. Mr. Massett is one of the cleverest of vacon tems and the most amusing of mimics. He has an excellent voice, and sings ballads with taste and dramatic expression, a rare gift. He keeps his audience on the qui vive from the beginning to the end of the entertainment, and sends them bome in the happiest frame of mind. In the face of all the pubic amusements of the metropolis, and with his [From the Home Journal, Saturday, Oct. 2d. 1858.]

Mr. Stephen Massett's Entertainment.—Mr Massett made a hit at Niblo's, and we are satisfied hat his style of entertainment will become popul that his style of entertainment will become popular—combining as it does, the serious and comic in recitation and mimicry, pathetic ballads rendered with expression and feeling; and a sketchy, amusing though brief history of his wanderings in all parts of the world. His reading of Hood's "Song of the Shirt," and the manner of his delivery of Tennyson's "Charge of the Light Brigade," show that he possesses elocutionary power of a high order; while his graphic description of his personal adventures in British India, entitles him to some distinction as a keen observer. We were pleased with his ballad singing. Hood's "I remember," and "Scenes of Home," music by Balfe. were given with much expression, and obtained he largest shares of commendation. The comic scene from the "Lady of Lyons," was irresistably droll, as was also the scene at the Bacrament Theatre of "Master John Stage Struck." Th audience were enthusiastic in their applause, and the announcement that a repetition would take place in the coming week, was received with

Can the editor of the Cincinnati Enquirer tell us anything of a caucus held by certain prominent politicians of this State, for the purpose of devising means to silence the turbulent element (as it is termed) in our party? We have heard that such a caucus was held in Cincinnati, at the Enquirer office; but we can scarcely realize such a thing. The idea that Kentuckians should assemble at the office of the Wilmot Proviso editor of the Cincinnati Enquirer to fix up Kentucky politics, almost staggers belief.

After the Convention at Lagrange adourned, last Saturday, a non-intervention Demorat from Louisville made a speech in the Court House, to the mingled disgust and amusement of the few that remained to hear him out. Before young Democrats presume to address intelligent udiences on such a subject as non-intervention, they would do themselves no harm by studying the question and arranging their ideas so as, it possible, to do their subject, themselves and their

COAL AT HAWESVILLE-It will be seen by the dvertisement in another column, that Messrs. Williams & Co., at the upper yard, Hawesville, offer coal to steamboats at the very low price of five cents per bushel. They know freights are specimens sent us Saturday were very large and low, and that boats are having a pretty hard time of it generally, and being clever gentlemen, they wish to make things as easy as possible for their river friends.

A BREWERY DESTROYED—LOSS ABOUT \$10,000.—
The fire about one o'clock this morning was in Kleiner & Co.'s Jackson Brewery, a large frame tenement, on Hamilton road, above its junction with Elm street, which, with some five thousand bushels of malt, and other grain, was destroyed.

The loss upon the building and stock, on which there is an insurance of \$4,000, will be about \$10,000. The fire originated, we understand, in some imperfection in the still. At the late hour of our return from the conflag ration we have no time to give particulars.—Cin. Eng., Saturday. A patent was last week granted to George W. Toleman, of Augusta, Ky., for improvement

F. L. MCCHESNEY,

Editors Louisville Courier: I notice almost daily in the Louisville papers the names of various gentlemen proposed as candidates to represent this (Oldham) county in the next Legislature, subject, however, to the decision of a county convention, or a convention of the Democracy of the county. It is generally known that two menths ago I was announced as a candidate for a seat in the lower House of the next Kentucky Legisla-ture from this county, and my position in regard to a convention I have stated, on all proper occato a convention I have stated, on all proper occasions, to be, that if any gentleman would, without a convention, take the field and canvass the county with me, and the people did not indicate in due time which of us should withdraw, and a necessity should occur for such action, that I would submit my claims to a fairly constituted convention of the Democracy of the county, and abide its decision. If this proposition should not meet the approval of other aspirants, all I have to say is that I have nothing better to offer, and shall cheerfully submit to the verdict which may be rendered by the voters of the county on the first Monday in next August.

GALT HOUSE, LOUISVILLE, May 15, 1859. GALT HOUSE, LOUISVILLE, May 15, 1959.

—Just returned from a visit to the Mammoth.
Cave,—without doubt the greatest curiosity in
the United States of America; but as I like always to commence at the "start," and as I think
any civility offered a stranger deserves at least
an acknowlegment, and there may be some who
read this unacquainted with the "modus operandi" of getting to this far famed locality, let
them first pop into the Stage office,

under the Galt House, and they will see the smiling, good natured, pleasant spoken, rosy-cheeked Frank McNeill, who will, for a very moderate price, land them at the mouth of the Cave. Lord Grosvenor and Mr. "Pipes" took the cars from Louisville at 6 A. M., for Munfordsville, a distance of 74 miles. The Scenery along the Route

is exceedingly beautiful; the trees in full leaf, wore the bright green livery of summer, the hedges bloomed and blossomed, roses and wild flowers peeped out from pleasant cottages; hill, dale valley and leaf. dale, valley and lake refreshed the sight, the sky was without a cloud, and the air delicious and balmy.

We were greatly indebted to the polite conductor, Mr. Sweeney, for pointing out to us many objects of interest along the road, and I thought to myself, if people knew how grateful to a stranger, a kind word or a pleasant remark now and then is, there would be less surliness, frowning and dumb show among travelers, and more delight experienced in one? Wanderward

Here we toos "stage," one of "Carter & Thomas" commodious, patent back-action spring carriages. I should think that "real estate" was looking up continually here, and that the longer a man "held on" to his land the more cer ain he was of realizing a handsome profit. They have here a church, a courthouse, a judge, a hotel, and here a church, a courthouse, a judge, a horel, and a postoffice, several stores, and some capital lager bier. We were five, "all told," in the inside of the coach—a young lady, Miss R., returning to her home after eight months residence in Missouri, an Italian, from Vennee, on his travels, a good natured fellow from Jersey, Lord G., and myself. After a little time, and a good many jolts, bumps, and jerks, the usual "Pickwickian" reserve were off, and the conversation took a lively turn—and now.

How the Time Passed on the Boad, I shall tell you in another paragraph. The "taik' fell upon "eating"—why, I know not. I think I started it by saying "a mutton chop wouldn't go badly." To this my English friend replied "They cut them too thin in this country"—(bump bump, bump, went the coach, shaking us horrished. bly). The Jersey man replied, "he didn't know about that, but all he wanted was some good 'corn cake' and fat pork, steeped in molasses." This was the first time I had heard a man fairly acknowledge that he liked the dish. The lady, I think, remarked that she liked "chicken," and the

"Venetian" was knocked speechless, by another bump of the stage, right into my lap. This com-ing upon an empty stomach made me holler. A general laugh ensued, and the rest of the four hours journey was passed in laughter, aneodote, and fun. At about two o'clock we arrived at the Woodland House, kept admirably by W. Ritter. The young lady flew into her father's arms. Kissafter kiss re-echoed through the grounds, the old horse even neighed a welcome, and it was really splendid to

The bumping we had latey received was nothing to this, and all other roads as marble. Our track lay through a forest of trees, and what with fording rivers, jumping over logs, crossing creeks, driving into ruts, going over big stones, up and down precipices, and being knocked together, jammed up and smashed, much worse than any "Punch and Judy" ever was, we

nearly "caved in" before we reached our destina tion. However, at 6 o'clock precisely, we dismounted at the Mammoth Cave Hotel, Kept by L. J. Procter, Esq., who, with his right hand man, Mr. H. C. It was originally intended for the Kentucky giant. I find it impossible, in the limits of a single letter, to give any adequate idea of this wonderful place. LOUISVILLE: ...... MAY 16, 1889. MONDAY.

Reading Matter on Every Page.

The Henderson Reporter-Who Are With Us. The Hencerson Reporter, a capital Democratic weekly, published at Henderson, Kentucky, in its issue of May 12th, copied a noble article from the Mayaville Express, in favor of Congress protect ing slavery in the Territories, whenever the violated rights of the South demand such protection. It also contains a similar article taken from the Cynthiana Age, of the 11th of March, before the present Douglas-mad editor of that now unfor unate paper committed it to the Black Republican heresy of squatter sovereignty. We, therefore, find the Maysville Express, the

Bardstown Gazette, the Bowling Green Standard, the Henderson Reporter, and the Paducah Herald, to s.y nothing of other papers in the State yet elient on the subject, and supposed to be sound on the question, in conjunction with the Louisville Courier, giving publicity to the true States Rights Democratic doctrue of protection to slavery in the Territories, and combatting the Abolition heresy of no protection. The papers thus combined in advocating the sound doctrine of protection, and in combatting the rotten heresy of non-protection in this State, have an aggregate cir-culation many times greater than that of all the wishy-washy, milk-and-water, semi-Abolition, misnamed Democratic sheets in the State, that coincide with the Wilmot Provisoist of the Cincinnati Enquirer. We think this a pretty good indication of public sentiment in this State, and we therefore suggest to outsiders and dupes who have erroneously supposed that the Hon. Beriah Magoffin, as the shadow of the Lexington clique, was making the Gubernatorial race in Kentucky as a bid for the influence of Douglas in the Charleston Convention, that the sooner ther abandon this error the better. Mr. Magoffin is not doing any such thing. He is with the advocates of protection, proclaiming from every stump in the State, the power and the duty of Congress to protect slavery in the Territories, whenever the exigencies of the case demand such protection. On this platform he is going to win the race he is running, and after the first Monday in August next, there will not be an anti-protect mad panderer to some species of fanaticism, The August election won't leave enough squatter overeigns or soversign squatters in Kentucky to form a respectable band of mourners over the

We have another letter from Harrison county confirming the views heretofore presented by our correspondent as to public sentiment there. We are assured that the Democracy of Harrison are es heavily down upon the Age as they are upon he Cincinnati Enquirer. Neither of these wouldbe organs reflect public sentiment there, and we think the Age will soon awake to a sense of the difference between its Abolition heresy on the Territorial question and the sound principles of the

We understand the Democracy of Harrison to bold the position of ourselves on the Territorial question. They say that neither Congress, nor a Territorial Legislature, nor the inhabitants of a Territory, can lawfully interfere against the rights of slave-holders in a Territory desired. of slave-holders in a Territory during the Territorial condition; and they further say that any such interference against slavery, during the Territorial state, is an outrage upon the rights of the slave-holders that demands Congressional protection. They are not so silly as to cry out noninterference by Congress after there has been absolute interference by a Territorial Legislature as the agent of Congress, but more wisely and con-Sisterily claim protection against any such inter-

It is all folly for the Cynthiana Age and the Cincinnati Enquirer to attempt to corrupt the Democracy of Harrison county. The people there think for themselves, and when they see that slavery is interfered with in the Territories by such Wilmot Proviso Abolitionists as the editor of the Enquirer, they can't be gulled into the idea that non-intervention means non protection. It would be a nice state of things to allow such Abolition welves in Democratic sheep's clothing, as the editor of the Enquirer, to interfere as much as they please against slavery in the Territories, and then silence all complaint, by crying out non-intervention. That is just what the rescals want to do, but we shall contend for protection instead of non-intervention, when these Wilmot Proviso scamps in terfere against slavery in the Territories. Neither non-intervention, nor non-interference, precludes the idea of protection, as the inaugurators of this Black Republican, Squatter Sovereignty, Dougles movement in Kentucky will soon learn.

The Bowling Green Standard with Us. That sterling Democratic paper, the Bowling Green Standard, published at Bowling Green. Kentucky, in its issue of the 14th inst., endorses our position upon the Territorial question. The Standard is true to the Democracy, to the South. and to the Nation, and is not to be swerved from the true path of Democratic statesmanship by the p werful influences which have recently been oug t to bear upon the public mind of Kentacky, for the purpose of Douglasizing the State, and handing it over to Black Republican influence in the shape of squatter sovereignty, or the power of a Territorial Legislature to exclude slavery before the Territory becomes a State. The Standard assures us that it is with us upon this Territorial question and the Constitutional rights of the South, and that the Democracy of the Green river country will stand by us in resisting any attempt to fasten the Douglas heresy of squatter sovereignty, which we are combatting, upon the pure creed of our party. Here is what the Standard says:

"We can tell you how nine tenths of the Dem-oracy of the Green river country stand. They are with you (the Courier) heart and soul, and there is no man or set of men that can ever oram Douglas-ism down their throats. Four course is and will be approved by a large majority of your countrymen."

Editors Louisville Courier: We travel and learn; and observation impresses upon me that this section of the grand republic is great as an agricultural country, and hard up for cash. Cities are the fancy stock on the Missouri river, and on every knoll is located a town site, from Sioux City to Leavenworth. In fact, in Nebraska, bordering on the river, there are but a few miles of territory which is not named on paper as a city. Money, mint drops, and that sort, is scarce, and Nebraska bank bills can be bought by the cord, from which you can infer their value.

The entire country, as you may know, has been

ka bank bills on he bought by the cord, from which you can infer their value.

The entire country, as you may know, has been flooded with such stuff, and this, with fancy "city" stocks, caused a grand bust up. Speculation is at ebb tide, and those who didn't make fortunes in town lots have removed, or by necessity, gone to cultivating the soil, which of course, after all, makes the cities and the prosperity of the State. But many are yet stark mad on the subject of towns and quarter sections. A few days since, I was approached on the steamer Omaha, by a half-breed, whose cut of gib indicated the knave, with the question, "don't you want to buy land or town lots." At that particular time, feeling somewhat disgusted with all things in this sublunary sphere, and a trip up the Missouri river, especially, I informed him I wouldn't give a d—m for town lots, or all the land in Nebraska. "Ah!" said he, "wait until you see Aspinwall, then you won't say that." Well, a miles above I did see Aspinwall, and it comprised three cabins, two half-breed squaws, a half dozen dirty children, four dogs, and perhaps as many men—and that is a fair sample. In this and other fancy cities lots have been laid out, reaching three miles back from the river. Since I have seen Kansas and Nebraska. I do not doubt

from every point named.

One day last week, two persons crossed the fer-ry at St. Joseph on route for Pike's Peak. I met a miner who left the Peak a few weeks since, and a miner who left the Peak a few weeks since, and he denounces the thing, in unmeasured terms, as a swindle and humbug. He says that miners do not average over 50 cents per day, and it is rarely they make a dollar. But what's the difference if he does say so? Every fellow who emigrates thinks he will do better, and our fast and knowing people like to see for themselves. I guess they'll see the elephant, and that's about all.

The speediest and best route to Nebraska, or upper Missouri, is over the Hannibal and St. Joe Railroad, and thence on the steamer St. Mary's, or Wm. Campbell, which ply as packets between

Railroad, and thence on the steamer St. Mary's, or Wm. Campbell, which ply as packets between Omaha and St. Joseph, Mo., leaving semi-weekly. These steamers run in connection with the railroad, and the line, although but recently established, is doing well.

Nebraska, for the first time is exporting corn and potatoes. Large shipments are made at Council Bluffs, Omaha, and other points. The potato grown here is the fluest I have seen. It commands the highest rate in St. Louis. Every steamer carries down as much corn as it can take, so large seems to have been the crop of last year. The truth is, as an agricultural country it year. The truth is, as an agricultural country it has no superior, but the climate would not be admired by Southern men. I was five days in one of these towns, and it rained three and blew a of these towns, and it rained three and blew a gale two—which sums up the whole five.

Indians are frequent visitors in Sioux City and Omaha. They are disgusting to decent people in their appearance and habits. Romance invests the red man with what he is not eatitled. They are drunken, lazy, trifling and revengeful, and eat dogs and cats. The squaws do the work while Mr. Indian gets drunk and suns himself. The squaws are ugly, and value virtue at a pin's fee. At Aspinwall I noticed two half breeds, the daughters of a Kentu kian, named Neil. They are the only handsome redskins I have seen. You see what Kentucky blood will do, even mixed up with that of a dusky female of the forest.

The ancient and honorable order, the Sons of The ancient and honorable order, the Sons of Malta, are extending their operations West, lodges having been opened at Nebraska City and Omaha, within a few days. It isn't possible they intend to take Sonera, is it? I hear that Henningsen and Walker have agents supplying Pike's Peak emigrants with arms. Perhaps they have induced the Sons of Malta to aid them. If so, that accounts for the entire amount of milk in the cocoa nut. As a member of the order I should, however regret it, because it might prevent the accomplishment of those objects, grand, startling and solemn, to which each member is pledged. Kansas and Nebraska are great places to break Kansas and Nebraska are great places to break down politicians, and also for those who went down in by-gone times. Ex-Governor Shannon is a resident of Kansas, while General John Calhoun, whose mode of fixing up votes didn't suit Mr. Douglas and the Black Republicans, is at present in Nebraska City. He is a Bostonian by birth, a good liver to judge by his ruddy face, and of more brain than honesty in political af ore brain than honesty in po fairs. He fell to rise no more when Gen. Ward B. Burnett succeeded him by appointment from the President. This latter personage, who is the hero of nine or more bloody and civil wars, is not total rout and rain of the miserable Douglas movement inaugurated here by the Louisville Democrat, Lexington Statesman, Frankfort Yeoman, & Co.

The population of the principal points on Missour river, is about as follows: St. Joseph, Mo., 15,000; Leavenworth, Kansas, 10,000; Kansas City, Mo., 4,000; Brownsville, Nebraska, 1,500; Nebraska City, 1,500; Council Bluffs, 2,000, and Omaha, 1,600; Sioux City, Iowa, 1,000—that's a fair estimate. Each of these places claim to be the nearest the gold miles, and emigrants start from every point named.

A LL Stockholders must now make the advance of 50 d. cents per share upon their stock, and send their certificates to D. C. Wilder, Secretary, at Marshall, Texas, for a reissue. The loan made and pald into my hands has protected those who have paid it, and secured thereby the opportunity to all for a temporary period of being also protected by now promptly paying. All who fall or neglect to do so now, must and will be cut off as clogs to the enterprise! I have no alternative left, as the Pres dent of the Company, but to enforce this policy. Those who have paid up have done so with this express and unconditional understanding, that all should be made to pay—thereby enabling the President and Directors to free the Company of litigation and every impediment to the successful prosecution of the enterprise—by a compromise. A new policy has been inaugurated Salaries and expenses have been reduced from \$50,000 per annum to \$13,000. The whole stock liability has been reduced one half in amount without injury to any stockholder who shal pay up—reduced to the actual value of the property of the Company, without estimating the rights and franchises at anything.

We must pay prometly our debts, and we must provide the means to construct the road, in order to reap the profits of the enterprise and secure the grants made by Texas to our company.

The company propose to raise the money by the sale of stock at par to purchase the labor to construct the road. Stockholders have the exclusive privileze of purchasing the stock for 9t days, frem April 6th, 1859. All persons are cautioned against buying or trafficing in the stock for the company, which shall not have been re-issued from the Marshall office, and bearing date since the tho of A. rd, 1859. The press, generally, friendly to this great Southern enterprise, will please copy this notice, that each and every stockholder shall be fully warned, as they reside in every State, and are in almost every locality in the Union.

STUTTERING AND STAMMERING CAN BE CURED.

DROF. J. KIBLER, of Virgidia, may be consulted at the gentlemens' parlor of the Galt House of this city, by the un ortunate sufferers of the aforenamed maindy, without charge, until the 21st of May. He treats and cures Stammering upon new principles. which never have failed to effect a radical cure. His system will expose the defects of the old theories show why they would not result in a radical cure, and why his, of necessity, must. None need hesitate to give him a call. He will convince the most scientific sceptics (as he has done, and has their certificates to show) that a cure can be effected in the most solenific sceptics (as he has done, and has their certificates to show) that a cure can be effected in the most obstinate cases. We will show and prove the local cause of stammering to the patient, which is a new discovery in the science, and one which he will also prove to be in dispensibly requisite to a cure.

Read the following from a citizen of Cincinnati of eminent standing:

April 27th, 1859.

I have this day been inetructed as to the new theory practised by Prof. J. Kibler for the relief of stammering, and most heartily concur with the Professor and many other skeptics who have been convinced that this new discovery is the theory which can and must make a perfect and radical cure. I have a brother near St. Louis who stammers, at times, badly. I only wish he could fortunately meet with Prof. Kibler, who can show, in a very short time, why the theories by which his case was treated would not cure, and prove why this theory of cure to all the sufferers of impediment of speech.

[Signed], Dr. John N. Mowry, an eminent practitioner of Mansfield, Ohlo, states, in a certificate given Prof. Kibler, "That it is impossible to either stutter or stammer" by the principles of this theory, to which certificate is signed J. For years these Springs have been highly esteemed for heir medicinal proper les. During the past season their reputation in this respect has been singularly confirmed. They were administered by a physician, judiciously as to quantity, time of drinking, continuance, &c., and un-ter this systematic plan the cures were numerous and gratifying. THE OHIO WHITE SULPHUR SPRINGS are situated in Delaware county, 18 miles north from Columbus, the Capital of Ohio, on the Scioto river, 10 miles from Delaware, 5 miles from the White Sulphur Station, on the Springfield, Mt. Vernon and Pittsburgh Rationad, and 10 miles from Pleasant Valley or Springs Station, on the Columbus, Piqua and Indiana Railroad. These Springs will open for the reception of visitors

ON THE 1ST DAY OF JUNE. The improvements of 1859 have been large, enabling the proprietor to accommodate from five to six hundred guests. Among these improvements may be mentioned a large and elegant hotel, new oottage rows, additional buildings for amusement and recreation, extensive bathhouses, a steam laundry, &c., &c.

Upon the estate there are five Springs, all within the lawn, four of which, the WHITE SULPHUR, the CHALT-BRATE, the MAGNESIAN, and the SALINE CHALT-BRATE, are decidedly medicinal, whilst the fifth is remarkable for the purity of its water.

is a beautiful Artesian fountain, situated near the rocky bank of the Scioto river. At the depth of 160 feet be low the level of the Scioto, flows the remarkable stream of sulphur water which supplies this Spring. This stream was olscovered some 30 years ago by a gentleman who was boring for sait. The water, when reached, at once arose to the surface, and has ever since continue to flow, during all seasons, without change or abatement either in quality or volume. MEDICINAL PROPERTIES.

is a gentle aperient.

Invalids may rely upon every facility being furnished them which can contribute to health and comfort.

As a delightful resort during the summer months, the Ohio White Sulphur Springs have no rival in the West, and but few in the United States. The location is peculiarly healthy; the Schoto here is a rapid, rocky stream; the "Cliff Limestone," a formation hundreds of feet in thickness, through which the river cuts its way, is everywhere either at or near the surface; the grounds of the estate are beautifully undulated, and interspered with numerous ravines which carry off all the superfluous water, thus rendering the soil dry and the atmosphere free from that humidity so prejudicial to health. these circumstances, taken in connection with the altitude of the place, about 1,000 feet above the level of the ocean, make the locality as free from malarious influences as a mountain region. a mountain region.

The Spring property consists of 320 acres of land, one hundred of which is covered by one of the most beautiful groves in Ohio. This woodland is handsomely laid off into walks and drives, one of the latter being two miles in extent.

Bathing here by the plan adopted is brought into fair competition with that at naturally Warm and Hot Springs. The water is heated in the bath the by steam pipes; the heat not being raised high enough to pre-cipitate its saits, it is by this system applied to the sur-face of the bather without the loss of its sailne ingre-

Arrival of the Star of the West.

New York, May 14.—The steamer Star of the West, from Aspinwall on the 4th and Havana on the 9th, arrived here this morning, bringing nearly a million and a half in specie. Her California advices have been anticipated by the Tehuantepec steamer. She reports having passed on the 7th inst., in lat. 2:18, long. 84:48, the U.S. storeship Relief, standing north.

Left at Aspinwall the frigate Roanoke.

The principal consignees of the treasure list are: Wells & Fargo \$280,000, American Exchange Bank \$197,000, Strauss & Bros. \$114.000, W. P. Coleman \$97,000, Freeman & Co. \$83,000, Duncan, Sherman, & Co. \$85,000.

man, & Co. \$55,000.

A rumor was current at Apalachola, but as no date is given the advices are probably not so late as have been already received via Vera Cruz, that the Liberals had taken all of the city of Mexico except the palace.

The overland mail of March 28th arrived at San

Jose on April 19th. The advices from the Isthmus are unimportant. The Panama Star says the Cass-Herran treaty, which was sent from Washington to Bogota for ratification, has been lost in the Magdalena river by the capsizing of a boat in which it was placed.

From Washington.

Washington, May 14.—The War Department has designated the following stations as schools for artillery practice: Forts Ridgely, Randall, and Leavenworth in the department of the West; Forts Clark, in Texas, and Vancouver, in Oregoa. The following officers have been appointed inspectors: Brevet Col. Monroe, department of the West; Brevet Lieut. Col. Nauman, California and Oregon; Brevet Col. Harvey Brown, department of the coast of Texas. Lieuts. Almy and Pegram have been detached from the command of the steamers Fulton and Water Witch. Lieut. C. F. Chief John Faren; first assistant Spoon-er, second assistants Kellogg and Houston; third assistants Koop, Kavenaugh, and Hall. Commissioner Greenwood entered upon his duties in the Indian Bureau yesterday.

From Newfoundland. From Newfoundiand.

Sr. Johns, N. F., May 14.- The agent of the New York Associated Press, at Cape Race, with his assistants and news boat fully equipped for service, off that point, left this city to-day, and will doubtless be in order for efficient service on and after Monday next. The arrangements of the press are far more reliable than they have been before, and there is good reason to expect that every steamer passing day or night within reasonable distance of the Cape Race Lighthouse, will be boarded by the Association's news boat, all the arrangements being under the immediate supervision of Mr. Far-rel, for many years the attentive manager of the news boat establishment of the Association at

Ocean Steamers. New York, May 14.—The steamer Bremen for Southampton sailed at noon with 287 passengers and a half a million dollars in specie. The steamer Glasgow also sailed for Glasgow with 228 passengers. sengers.

The steamer Adelaide from Galway via. St John's has been signaled below, and will be up at 8½ o'clock. Her advices have been anticipated.

The Election in Halifax. HALIFAX, May 13.—The provincial election on Thursday resulted in favor of the Liberals, the Protestant cause obtaining a majority of 9 in the Parliament representation; 5 of the present Exe-cutive Councillors were defeated.

From the Plains. St. Louis, May 14.—The Santa Fe mail of the 25th ult. has reached Independence. Three overland mails by the central route are now missing. Advices from Pike's Peak are discouraging, but there is no falling off in emigration. Sailed.

LYON'S MAGNETIC POWDERS, Will destroy Garden Insects, Cockroaches, Bed Bugs, Fleas Anis Moths, and all pests of the vermin kind.

The importance of a reliable article of this kind is inestimable. In warm weather all nature teems with there annoying foes. This powder is the only article ever discovered which will exterminate them. A company of botanists, from the Horticultural Society of Paris, while amidst the ferns of Asia, observed that all insects lighting upon a certain kind of plant very soon dropped dead. This fact was made use of to guard their night camps from these intruders. Quantities of the plant were broughthome by Mr. E. Lyon, and found a positive insect destroyer in every experiment. It is simply a powdered leaf, chemically prepared to resist the effect of age and climate. Medals and Letters Patent have been obtained from the Governments of England, France, Germany, and Russia, from the World's Fair, and numerous medical and horticultural colleges, and societies. The importance of a reliable article of this kind is in Letters from the President of the United States.

EXECUTIVE MANSION, WASHINGTON, Jan. 31, 1858.
"Mr. EMANUEL LYON—Dear Sir: I have the pleasure t inform you that the Royal Commission of the World's Fair, at London, have awarded you a Medal and Certifi-cate for the great value of your Magnetic powders, for

nating insects, etc.
"MILLARD FILLMORE, Chairman." The above was accompanied by a certificate of Prince IT IS FREE FROM POISON.

MR. E. LYON—Dear Sir: We have analyzed and tested your Magnetic Powders, and find them perfectly harmless to mankind and domestic animals, but certain death when inhaled by bugs, ants, and insects.

JAMES R. CHILTON. at. D., Ohemist.

LAURANCE REID, Prof. Chemistry, N. Y. Hospital.
Mr. JOHN L. ROME, Superintendent of the New York Hospital, says, "he has expelled all the bugs, ants, roaches, moths, etc., with Lyon's Powder, and finds it of immense value."

Every gardener and house-keeper must have a direct interest in an article of this kind. Reference can be made to the Astor, St. Nicholas, and Metropolitan Hotels; to Judge Meigs, President of the American Institute; James Gordon Bennett, Gen. Winfield Scott, Cyrus W. Field, L. M. Pease, of the Five Points Mission, etc., etc. Judge Meigs says, "This discovery of prof. Lyon is of national importance. The Farmers' Club have tested it thoroughly. It will destroy locusts, grasshoppers, ants, moths, bugs, and all vermin. Garden plants can be preserved, and houses made pure."

Arrangements are now made, through Messrs. Barnes & Pare, of New York, to have it sold throughout the world. Many worthless imitations are advertised. Be cautious!

"In retiring from business, I have sold all my Insect Powders and Pills, Letters Patent, and the secrets pertaining thereto, to Messrs. BARNES & PARK. This powder is a discovery made by myself, and brought from the interior of Asia, and is unknown to any other persons. These symptoms, if allowed to go on—which this medicine invariably removes—soon follows LOSS OF POWER, FATUITY, AND EPILEPTIC FITS—in one of which the patient may expire. Who can say that these excesss are not frequently followed by those direful diseases—INSANITY AND CONSUMPTION? The records of the INSANE ASYLUMS, and the melancholy deaths by CONSUMPTION, hear ample witness to the truth of these assertions. In Lunatic Asylums the most melancholy exhibition appears. The countenance is actually sodden and quite destitute—neither Mirth nor Grief ever visits it. Should a souad of the voice occur, it is rarely articulate. ture, violent exercise, nor change of place, have any appreciable disturbing effect.

As a pecuriar advantage, there is no danger of stopping under the most violent motion, either in the care, on horseback, or in any vehicle.

In over one hundred instances these watches have stood the test of actual daily noting, and have exhibited as a result, a rate equal in regularity to the best Marine Ohronometers. In several instances, their performance at sea has been superior to the Chronometer.

To those who reside on the line of railroads, or whose avocations taking them frequently in the cars, make a perfect time keeper less of a luxury than a necessity, these Watches are recommended with the most complete confidence.
